

## 2022 New Plots

The 2021 Board did approve an expansion of the Community Gardens by six plots towards the play area. A small number of monies are available for expansion with the requirement that the new gardeners create their plots. Plots can be made of wood, metal or garden rocks. Soil will be required. Plots fees (\$35) will be waived for two years, when you build your own plot. If you are interested in creating your own garden plot, give Christina Morse a call or email to discuss.
